

FORGED LINK DOUBLE SERIES

FORGED LINK DOUBLE SERIES

For the dual strand, we offer a variety of links adhering to the standard format but featuring a forged "double clevis" for the attachment of a scraper. The flight blade can be secured using either a U-bolt or conventional fasteners. This chain incorporates built-in clearance between strands, mitigating potential issues associated with mismatch.

FORGED LINK DOUBLE SERIES

Chain Number	P	T	C	S	Z	G	D	TN*	CN*	CD*	Weight
