

Forged Link Triple Series™

Forged Link Triple Series

For applications demanding extra-wide flights, our triple-link design offers a unique solution, enabling the use of three chain strands, reaching up to 3100 mm overall, when combined with the double on perimeters. The innovative "Double slot" provides a versatile method for flight retention, accommodating both steel and plastic options.

Forged Link Triple Series

Chain Number	P	T	C	S	Z	G	Bolt Hole Diameter	Breaking Loads			Weight
							D	TN*	CN*	CD*	
							mm			kN	kg/m
